

## **The information found on this website has come from VERY MANY sources.**

Sometimes it comes from medical doctors that have realized that they were not helping their patients get better and often they were actually getting worse. In some cases no matter what the doctor did the patient died.

These doctors began to realize that treating the different systems in the body with various different types of “Specialized Doctors” using “SPECIALIZED DRUGS did not help a person regain or maintain health. Some of these Specialists are Cardiologist, Dermatologist, Gastroenterologist, Neurosurgeon and Urologist to name a few. There are about 65 different types of doctors. Here is the link to see this article that expands on what each doctor does.

<https://www.bioexplorer.net/types-of-doctors/>

Here is another link regarding Specialties: <https://www.sgu.edu/blog/medical/ultimate-list-of-medical-specialties/>

When the doctor realizes that the body needs to be treated as an entire “whole” system they change how they diagnose sickness and how they treat it. It is the reason for HOLISTIC HEALING! All the systems of the body work in harmony with each other and when one system is “out of whack” the whole body is then “out of whack”!

When a doctor comes to the conclusion that they have only been treating the SYMPTOM of a given condition and have not looked at the cause then they realize they need to change the way they view disease and how they treat it!

On this site **Time 4 Truth**, there are many videos to watch. When you watch the majority of them you will see where these doctors, practitioners and other experts have obtained their information. Dr. John Bergman almost always gives the SOURCE of his FACTS! He is possibly the BEST person to watch because his information is WELL SUPPORTED in SCIENTIFIC PROVEN FACTS! GreenMedInfo (Sayer Ji) sources are Results-Driven and from Evidence Based Research. GreenMedInfo has 45,641 Research Abstracts and over 10,000 Health Topics.

Some of the sources that are used are as follows:

AMA – American Medical Association

BMJ – British Medical Journal

CDC – Centers for Disease Control & Prevention

HHS – Health & Human Services

JAMA – Journal of the American Medical Association

Lancet – British Medical Journal

NIH – National Institutes of Health

SCOTUS - Supreme Court

WHO – World Health Organization
